

Professional Indemnity

Delivering shared success

As a mutual company, we focus not on shareholders and stock markets, but on our policyholders and partners. We take time to get to know your business and what you need from your insurance solution.

Our underwriting involves a thorough analysis of your risks, backed by a deep understanding of your industry, while our integrated underwriting, claims and risk management offers you a creative risk-transfer solution.

Solutions for your most complex risks

As a leading insurer of Professional Indemnity (PI) insurance we have successfully been delivering PI to businesses of all sizes on a primary and excess layer basis from our operations in the UK, Ireland, Continental Europe and the Middle East.

We recognise that every business is different, so work closely with brokers and clients to arrange cover with your specific needs in mind and with a view to establishing long-term partnerships for mutual advantage. These clients relationships are strengthened by our consistent underwriting approach across a diversity of professions and throughout the insurance market cycles.

Our highly experienced underwriters have developed a suite of PI products which are suitable for all key professions. In addition we have established dedicated teams who focus on niche areas including Solicitors, Independent Financial Advisers, Single Project PI and US domiciled businesses.

With you for the long term

Our mutual status means we have the time to evaluate risk and work with our clients over the long term. Our experienced teams are resourceful, responsive, and empowered to make decisions quickly. Clients will benefit from our technical underwriting capabilities, the strength of our relationships and our unique approach to claims service.

Continuity in a changing world

Some clients have been with us for over 20 years. Why? Because we have a culture of flexibility and transparency. Quite simple; we do the right thing.

Your business doesn't stand still and neither do we. We're constantly evolving the way we see risk and the products this requires, investing in people and resources, and building our global distribution networks – bringing you continuity and reassurance in an ever changing world.

Insurance can be a force for good and we have a role in supporting the transition towards a low-carbon future. LSM is supporting Climate Transition Pathways, currently working to provide a number of benefits to companies with accredited transition plans, in addition to continued access to insurance capacity. For instance, LSM is exploring how to meet the challenge of the transition with longer-term and more expansive solutions.
